

# Amazing Seals Diving

FantaSea Scuba and Travel announces the addition of Masha Bowen to their staff. Masha and Gary Shaleen (owner of FantaSea) recently completed the Handicapped Scuba Association instructor course in Florida. The Handicapped Scuba Association (HSA), founded in the 1980s, is the leader in disabled dive training. HSA operates as an independent training and certifying agency, and offers programs in conjunction with PADI and NAUI.

For more information on HSA go to [www.hsascuba.com](http://www.hsascuba.com) and [www.amazingseals.com](http://www.amazingseals.com).

The FantaSea Dive Center, under the direction of Masha and Gary, now offers Discover Scuba (introduction to scuba) through Courage Center in Golden Valley. In early 2008, FantaSea will begin offering full scuba certification for students with specific physical challenges that might otherwise discourage them from diving. These classes are taught with the utmost attention to safety and consideration of the student. The instruction techniques utilized have evolved over years of teaching and research, resulting in a learning experience that is safer--and fun! Multilevel student certification enables FantaSea to train persons with all types of physical challenges.

For more details on the dive training and programs described above, contact FantSea Scuba (952-890-3483) or email [info@fantaseadivers.com](mailto:info@fantaseadivers.com). Additional information can be found at [HSA](http://HSA) and [amazingseals.com](http://amazingseals.com).
